

Cut straight edge of bottom wing on both front and back bird figure. Cut straight edge of top wing on both pieces.

Align 2 pieces, printed side out, on bottom cut edge making sure to match up sides as well.

Put 8 inch length of string or thread at top of wing, (where black line indicates on PDF) sandwiching the thread between front and back.

Glue pieces together, burnish with bone folder. Cut out remainder of bird with exacto knife.
